HELPFUL HINTS

STACK YOUR BINS with

- Newspaper bin on the bottom,
- Mixed paper in the middle, and
- Containers on top (keeps paper from blowing away).

Place other items beside your bin; extra items may be placed in a paper bag beside the bins.

Anchor cardboard so it doesn't blow away; placing items in a paper bag and putting it in the bin helps to keep items from blowing away.

PLACE YOUR BINS

- within 5 feet of the curb or road edge
- by 6:30 am on the day of collection.

Recycling collection will take place on the same day as garbage collection.

For information on multi-family recycling, call Clark County at 397-6118 ext 4352

The information throughout this Directory was compiled in March 2006 from information provided by each agency or business. Information should be verified prior to delivery of materials.

Although local government staff have attempted to include as many Clark County recycling listings as possible, these resources should not be viewed as a comprehensive list. Due to space limitations, most businesses located outside of Clark County have not been included.
